Bitdeer Reported Unaudited Financial Results for the Second Quarter of 2024

August 12, 2024

- Revenue of US\$99.2 million and gross margin of 24.6%
- Adjusted EBITDA of US\$24.9 million, up 33.2% YoY

SINGAPORE, Aug. 12, 2024 (GLOBE NEWSWIRE) -- Bitdeer Technologies Group (NASDAQ: BTDR) (“**Bitdeer**” or the “**Company**”), a world-leading technology company for blockchain and high-performance computing, today issued a letter to shareholders along with its unaudited financial and operational results for the second quarter ended June 30, 2024.

Q2 2024 Financial Highlights

- **Total revenue** was US\$99.2 million, compared to US\$93.8 million in Q2 2023.
- **Cost of revenue** was US\$74.8 million, compared to US\$77.7 million in Q2 2023.
- **Gross profit** was US\$24.4 million, compared to US\$16.2 million in Q2 2023.
- **Net loss** was US\$17.7 million, compared to US\$40.4 million in Q2 2023.
- **Adjusted EBITDA** was US\$24.9 million, compared to US\$18.7 million in Q2 2023.
- **Cash and cash equivalents** were US\$203.9 million as of June 30, 2024.

Management Commentary

“Our second quarter was marked by strong financial performance and significant progress across all our major initiatives,” said Matt Kong, Chief Business Officer of Bitdeer. “We reported revenue of \$99.2 million, gross profit of \$24.4 million, and adjusted EBITDA of \$24.9 million, up 5.8%, 50.6% and 33.2% year-over-year, respectively. We achieved these results despite significant growth in the global network hashrate and the April 2024 halving. This demonstrates the strength of our differentiated strategy, underpinned by Bitdeer’s commitment to technology and innovation. For instance, our previous R&D investment in our cloud hashrate business contributed a gross profit of \$7.3 million with a nearly 60% gross margin in Q2 and helped us generate more revenue for the same amount of hashrate relative to our peers.”

Mr. Kong continued, “During the quarter, we also made significant strides in our SEALMINER ASIC roadmap. Our acquisition of Desiweminer enhances our capabilities by integrating their team with our in-house design team in Singapore. We have energized the first batch of our SEALMINER A1 chips, with mass production underway and plans to install 3.4 EH/s into our datacenters by year-end. Our second-generation SEAL02 chip initial tape-out wafer delivery from TSMC remains on track for late September. Upon successful testing, we anticipate ramping mass production by the end of the year. We also have started our third-generation SEAL03 chip R&D. In our HPC and AI business, we have deployed the NVIDIA DGX SuperPOD H100 system in Singapore and achieved 100% utilization in July. Additionally, our global power and datacenter infrastructure continues to expand. We announced a 30-year lease agreement for 570 MW of power capacity in Ohio, increasing our total global capacity to 2.5 GW. Our ongoing datacenter projects in the U.S., Norway, and Bhutan are on track, supporting our ambitious growth plans and solidifying Bitdeer as an industry leader for years to come.”

Mr. Kong added, “Finally, we ended the quarter in a strong financial position with \$228.8 million of cash and cash equivalents and cryptocurrencies on hand. As we gear up for the upcoming bull market, we remain focused on expanding our Bitcoin self-mining capacity, executing our SEALMINER technology roadmap, and monetizing our impressive 2.5 GW power portfolio for HPC/AI.”

Operational Summary

Metrics	Three Months Ended Jun 30,	
	2024	2023
Total hash rate under management (EH/s)	22.3	18.8
- Proprietary hash rate	8.5	6.2
- Self-mining	7.3	3.8
- Cloud Hash Rate	1.2	1.6
- Delivered but not yet energized	-	0.8
- Hosting	13.8	12.6
Mining machines under management	223,000	199,000
- Self-owned	86,000	70,000
- Hosted	137,000	129,000
Bitcoin mined (self-mining only)	628	758
Total power usage (MWh)	1,192,000	1,136,000
Average cost of electricity (\$/MWh)	43	41
Average miner efficiency (J/TH)	31.6	33.4

Power Infrastructure Summary

Site / Location	Capacity (MW)	Status	Timing ³
Electrical capacity			
- Rockdale, Texas	563	Online	Completed
- Knoxville, Tennessee	86	Online	Completed
- Wenatchee, Washington	13	Online	Completed
- Molde, Norway	84	Online	Completed
- Tydal, Norway	50	Online	Completed
- Gedu, Bhutan	100	Online	Completed
Total electrical capacity	895		
Pipeline capacity			
- Tydal, Norway Phase 1	40	In progress	Q4 2024
- Tydal, Norway Phase 2	135	In progress	Mid 2025
- Massillon, Ohio	221	In progress	Mid-to-late 2025
- Clarington, Ohio Phase 1	266	In progress	Q3 2025
- Clarington, Ohio Phase 2	304	Pending approval	Estimate 2026
- Jigmeling, Bhutan	500	In progress	Mid-Late 2025
- Rockdale, Texas	179	In planning	Estimate 2026
Total pipeline capacity	1,645		
Total global electrical capacity	2,540		

Financial MD&A

All variances are current quarter compared to the same quarter last year. All figures in this section are rounded.

US \$ in millions	Three Months Ended

Business lines				
Revenue	41.6	12.2	20.6	22.1
Cost of revenue				
- Electricity cost in operating mining machines	(20.9)	(2.0)	(12.8)	(15.6)
- Depreciation and SBC expenses	(8.3)	(2.4)	(2.3)	(2.4)
- Other cash costs	(1.9)	(0.5)	(1.0)	(1.2)
Total cost of revenue	(31.1)	(4.9)	(16.1)	(19.2)
Gross profit	10.5	7.3	4.5	2.9

US \$ in millions	Three Months Ended Jun 30, 2023			
	Self-Mining	Cloud Hash Rate	General Hosting	Membership Hosting
Business lines				
Revenue	21.6	18.0	27.8	23.9
Cost of revenue				
- Electricity cost in operating mining machines	(9.5)	(4.1)	(18.6)	(17.1)
- Depreciation and SBC expenses	(6.2)	(5.2)	(3.7)	(3.1)
- Other cash costs	(1.9)	(1.6)	(2.4)	(2.3)
Total cost of revenue	(17.6)	(10.9)	(24.7)	(22.5)
Gross profit	4.0	7.1	3.1	1.4

Revenue

- **Total revenue** was US\$99.2 million vs. US\$93.8 million.
- **Self-mining revenue** was US\$41.6 million vs. US\$21.6 million, primarily due to the increase in self-mining hash rate to 7.3 EH/s from 3.8 EH/s from the Company's 100MW Gedu mining datacenter in Bhutan that entered into operations in the second half of 2023 and the higher average Bitcoin price.

- **Cloud Hash Rate revenue** was US\$12.2 million vs. US\$18.0 million. The decline was due to changes in the amount of active Cloud Hash Rate orders and the decrease in electricity subscription due to lower margins for customers caused by the April 2024 Halving.
- **General Hosting revenue** was US\$20.6 million vs. US\$27.8 million. The decline was primarily due to the decrease of average hosting capacity caused by the temporary shutdown of hosting mining rigs after the April 2024 Halving.
- **Membership Hosting revenue** was US\$22.1 million vs. US\$23.9 million, slightly down year-over-year.

Cost of Revenue

- **Cost of revenue** was US\$74.8 million vs US\$77.7 million. The decrease was primarily driven by lower mining machine depreciation from becoming fully depreciated and the true up differences of tax and surcharges.

Gross Profit and Margin

- **Gross profit** was US\$24.4 million vs. US\$16.2 million.
- **Gross margin** was 24.6% vs. 17.2%.

Operating Expenses

- The sum of the operating expenses below was US\$26.1 million vs. US\$24.8 million.
 - Selling expenses were US\$2.2 million vs. US\$1.9 million, primarily due to increased staff and compensation.
 - General and administrative expenses were US\$15.9 million vs. US\$16.5 million, about flat year-over-year.
 - Research and development expenses were US\$8.0 million vs. US\$6.4 million, primarily due increased R&D personnel and material costs related to the development of SEALMINER chips.

Other Net Loss

- In Q2, we recorded US\$15.5 million other net loss primarily due to the non-cash expense of the fair value change for Tether warrants.

Net Loss

- Net loss was US\$17.7 million vs. US\$40.4 million.

Adjusted Profit (Non-IFRS)

- Adjusted profit was US\$4.6 million vs. US\$2.3 million

Adjusted EBITDA (Non-IFRS)

- Adjusted EBITDA was US\$24.9 million vs. US\$18.7 million. The increase was primarily due to the year-over-year revenue growth and higher gross profit margins as described above.

Cash Flows

- Net cash used for operating activities was US\$74.1 million;
- Net cash generated from investing activities was US\$54.3 million including the proceeds from disposal of cryptocurrencies of US\$79.3 million received from the principal businesses.
- Net cash generated from financing activities was US\$105.1 million.

Capital Expenditures

- Capital expenditures for PPE and mining machines were US\$17.5 million vs. US\$38.1 million. The decrease was driven by approximately US\$20 million reduction in purchases of third party mining machines as the Company is focused on scaling operations with its own SEALMINERS going forward.

Liquidity

- As of June 30, 2024, the Company held US\$203.9 million in cash and cash equivalents, US\$24.9 million in cryptocurrencies and US\$37.8 million in debt.

Further information regarding the Company's second quarter 2024 financial and operations results can be found on the SEC's website <https://sec.gov> and the Company's Investor Relations website <https://ir.bitdeer.com>.

About Bitdeer Technologies Group

Bitdeer is a world-leading technology company for blockchain and high-performance computing. Bitdeer is committed to providing comprehensive computing solutions for its customers. The Company handles complex processes involved in computing such as equipment procurement, transport logistics, datacenter design and construction, equipment management and daily operations. The Company also offers advanced cloud capabilities to customers with high demand for artificial intelligence. Headquartered in Singapore, Bitdeer has deployed datacenters in the United States, Norway, and Bhutan. Use of Non-IFRS Financial Measures

In evaluating the Company's business, the Company considers and uses non-IFRS measures, adjusted EBITDA and adjusted profit/(loss), as supplemental measures to review and assess its operating performance. The Company defines adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, further adjusted to exclude the changes in fair value of derivative liabilities, listing fee and share-based payment expenses under IFRS 2, and defines adjusted profit/(loss) as profit/(loss) adjusted to exclude the changes in fair value of derivative liabilities, listing fee and share-based payment expenses under IFRS 2.

The Company presents these non-IFRS financial measures because they are used by its management to evaluate its operating performance and formulate business plans. The Company also believes that the use of these non-IFRS measures facilitate investors' assessment of its operating performance. These measures are not necessarily comparable to similarly titled measures used by other companies. As a result, investors should not consider these measures in isolation from, or as a substitute analysis for, the Company's loss for the periods, as determined in accordance with IFRS. The Company compensates for these limitations by reconciling these non-IFRS financial measures to the nearest IFRS performance measure, all of which should be considered when evaluating its performance. The Company encourages investors to review its financial information in its entirety and not rely on a single financial measure.

The following table presents a reconciliation of loss for the relevant period to adjusted EBITDA and adjusted profit, for the three and six months ended June 30, 2024 and 2023.
